

## DRUG POSTER PRESENTATION PROJECT

You may work in pairs; choose wisely, you want a partner who is reliable. Of course, you may choose to work alone. No groups of three. No excuses that “I can’t do my work because my partner isn’t here.”

You will be assigned one type of drug and you will be responsible for researching (using legitimate sources and recording them) the information listed below. You will need to present this information in the form of a poster on 8 1/2 x 11 paper. These posters will be displayed in the classroom. Please ensure that you are focused on providing information about the effects and consequences of choosing to use the drug you were assigned to research.

One group per drug. First come, first serve basis...

Your poster must include at least 5 things (more details on back):

- 1) Picture of the Drug
- 2) Street Names
- 3) Description (including type of drug, what it looks like, medicinal or recreational use, how the drug is made/obtained, how the drug is administered)
- 4) Physical & Non-Physical Consequences (short and long term effects on the brain and body, is it addictive, is it illegal, etc.)
- 5) Benefits of Not Using the Drug
- 6) Bibliography

Evaluation:     /25

Content of poster = 20 marks

Appearance of Poster = 5 marks

| Aspect  | Not Yet Meeting (C-/I)   | Minimally Meeting (C, C+)   | Fully Meeting (B-, B)  | Exceeding (A)  |
|---|--|---|--|--|
|   | 0-3  | 4-6   | 7-9  | 10   |
| Project completion & content<br><br>/20<br><br>= /10 x2 | Components are missing, information and/or illustration are severely limited or inaccurate | The suggested information have been briefly but accurately answered, and there is at least one illustration | All the components are present , information has been answered accurately and there are several good illustrations | Everything listed above has been done accurately and to a thorough degree, and even more info has been added   |
|   | 0-2  | 3   | 4  | 5  |
| Assignment/Poster appearance<br><br>/5                  | Titles, heading, text or pictures are messy, crooked, ripped...                            | Titles, headings, text or pictures are too simple or lack colour, too small to read from afar               | Titles, headings, text or pictures are done to satisfactory level but lack visual ‘pop’ to stand out               | Titles, headings, text or pictures are neat, darkly coloured to ‘pop’ and can be read from afar. Layout looks appealing and interesting through colour, borders... |

# DRUG CHOICES FOR RESEARCH POSTER

Ecstasy  
Ketamine  
Mushrooms  
Heroin  
Hashish  
Cocaine  
Steroids  
Crystal Meth  
Crack Cocaine  
LSD  
Acid  
Special K  
Rohypnol  
Methamphetamine  
Oxycotin  
Ritalin  
Marijuana  
Inhalants and solvents

## CONTENT - More Detailed

- Name of the drug
- What are other names it can be called?
- What does it look like?
- Picture
- Other distinguishing features (Taste? Smell?)
- What is your drug made of?
- How is it ingested? (smoke it, inject it, eat it)
- Short term effects
- Long term effects
- Where, in Surrey can someone go to find help with drug addiction?
- Bibliography. Tell me where you got your information
